Topic: Assistance in Mine Action

Alarmed by the amount of countries that need assistance in disposing of landmines on their land,

Deeply concerned by the amount of countries that have not signed the Ottawa Treaty and joined the International Campaign to Ban Landmines,

Desiring a greater effect towards landmine education,

Disturbed by the amount of fear caused by landmines.

1. Recommends the use of rats to detect landmines,
2. Calls for the creation of a UN force that will train troops on IED and landmine disposal,
3. Further requests the use of robots to take out land mines,
4. Expresses the dangers of land mines through public media,
5. Further requests education given to those living in landmine infested areas through school and on the internet, radio, newspaper, and TV,
6. Further supports banning the creation, construction, and burying of landmines in every UN member country in all their aspects,
7. Calls for the creation of a foundation to give a pension for the disabled or the family of the deceased and injured.
