The Human Rights Council has been active in developing solutions to prevent the violation of Human Rights on the Internet. They have been working hard to find solutions to this issue,

Fully Aware of the issue occurring across the world on Human Rights on the Internet,

Keeping in mind that there should responsibilities not laws of keeping the internet safe,

Deeply concerned that the basic rights of a human on the internet is not being met,

## **Resolution HRC/Section 1/2.1**

1. Expecting governments to start campaigns to bring internet access to schools for education;
2. Considers investing in education and literacy;
3. Recommends funding schools with programs that educate how to use the internet and how to stay safe on the internet;
4. Encourages governmental transparency to lift internet restrictions by encouraging the government of developing nations;
5. Supports advertising the human rights, so nations will realize how important they are;
6. Encourages governments to offer incentives to technology companies to donate a percent of sales to bring citizens of developing nations media devices.
