

Draft Resolution Legal/1/1.2

Legal Committee

Co-sponsors: Bangladesh, Brazil, Saudi Arabia, Australia, France, Uruguay,

Topic: "Eliminating International Terrorism"

Fully aware that terrorists are taking innocent lives,
Deeply concerned that the mortality rate caused by terrorism is increasing drastically,
Hoping that our resolution will save many,

1. Recommends offering paying jobs at military to help keep people safe. The jobs will pay well, which should benefit locals who need money;
2. Deeply concerned about oil that is stolen by terrorists so they can sell it themselves to make money;
3. Further recommends that we put oil containers underground and have the military service help guard them;
4. Requests that children who do not have birth certificates and go to school are given certificates; so if background checks are done we can make sure locals are not terrorists or spies and children will have a certificate of citizenship;
5. Requesting funds from the United Nations Office of Drugs and Crime;
6. Requests to define terrorism as an act of terror to gain attention from the public eye.
