

## Resolution UN Water/2.1

UN Water

Topic: Access to Sanitation

Co-Sponsors: Kingdom of Sweden, Republic of Argentina, Republic of France, Republic of Azerbaijan, Republic of Italy, Federal Republic of Germany, Islamic Republic of Pakistan, Russian Federation, Federative Republic of Brazil, Kingdom of Thailand.

Keeping in mind that there are an estimated 2.5 billion people who do not have access to an improved sanitation facility,

Confident about Millennium development goal number seven, which states that we will work together to ensure environmental sustainability,

Fully aware that the United Nations has done many things to solve the problem of access to sanitation,

1. Affirms the local governments to investigate the polluted non-sanitized water and clean it by using technology in order to stop this problem;

2. Encourages the world to educate a sanitation method to reduce the practice of open defecation;

3. Calls upon the world to donate money to be used for programs in local areas;

4. Further recommends developing the construction of treatment facilities;

5. Further requests countries to use taxes and funds for health for the countries without access to sanitation;

6. Approves setting up foundations around the world in countries in order to prevent pollution and promote access to sanitation;

7.Suggests lowering the cost of hospitals to easily treat the people who have been affected by pollution;

8.Emphasizes boosting the national consensus by increasing the number of sanitation facilities.
