Topic: Convention on Biological Diversity

The Committee,

Bearing in mind that human beings are unable to survive on earth without biodiversity,

Fully aware that biodiversity provides food, clean air, and drinking water,

Noting with deep concern the threats that humans pose to sustainability of biodiversity,

1. Reaffirms that the complete illegalization of poaching would be beneficial;
2. Requests for all countries to dedicate bodies of land and water as protected zones;
3. Encourages the promotion of animal protecting laws as well as hunting regulations;
4. Calls upon schools to educate students about the importance of biodiversity;
5. Further recommends all governments to implement fines on hunting;
6. Strongly condemns the amount of deforestation taking place each day, and calls for all countries to enforce laws on deforestation;
7. Authorizes countries to use the bacteria, Alcanivorax, to clean up oil spills.
