Topic: International cooperation in the peaceful uses of outer space

The General Assembly, recognizes the potentially dangerous use of weapons in space,

Taking into account the danger of space debris,

Acknowledging that some countries do not have access to space,

Recognizing that the next generation needs to be more educated about space,

Observing the need to collect as much space debris as possible,

Recognizing the importance of the Outer Space Treaty passed in 1967,

Recognizing the potential effects of commercializing space travel,

1. Calls upon the need to dispose of all space debris to the best of our ability;
2. Requests a summit to educate the public on space;
3. Requests materials and funding towards keeping space safe, peaceful, and clean;

4. Expresses its hope that the UN can help with funding for developing countries to get to outer space;
5. Encouraging the minimization of space debris;
6. Recommends establishing a foundation that clears out space debris consistently;
7. Declares that the signees have an option to destine a percentage of their GDP or resource rights to the foundations referenced in clauses two and six;
8. Encourages the collaboration between developing countries and developed countries for mutual benefits in the field of space.
