Topic: Green Jobs as an Effective Framework for Sustainable Agriculture

Alarmed by today's rising greenhouse gas levels,

Emphasizing the importance of our planet's health,

Aware that the cutting down of trees harms the Earth,

Keeping in mind the need to raise awareness for food sustainability,

Deeply concerned by the number of farms using unsustainable practices,

Concerned by the lack of funding and motivation towards sustainable agriculture, and green jobs,

Taking note of the importance of Sustainable Agriculture, and its positive effects on Earth,

Education

1. Strongly encourages schools to educate students on the negative effects of unsustainable agriculture, un-eco friendly practices, and unsustainable jobs;
2. Invites nations to fund programs in which farmers will be taught sustainable practices and will be given loans to execute their practices;
3. Considers that funding quality education is key to stopping the negative effects of unsustainable economies;

Funding and Subsidies for Sustainable Practices

4. Strongly encourages the growing of more crops and finding more places to plant farms;

5. Strongly requests that nations help fund sustainable agriculture and the creation of green jobs;

Protecting and Helping the Earth

6. Strongly encourages the substitution of fossil fuels with a form of renewable energy such as wind, water, and solar;

Food Security and Sustainability

7. Expresses its hope that countries will realize the profits and benefits of sustainable exporting.
