### Topic: Convention on Biological Diversity

Noting with deep concern that polluted air is a serious issue,

Recognizing that animals and plants suffer greatly from climate destruction,

Alarmed by the destruction of the habitats around the world and the numerous people who are oblivious to how they are helping this problem grow,

Expressing concern that habitat loss is worsening, delegations believe that climate change can be solved if nations collaborate,

Fully aware that biodiversity represents all living things such as flora and fauna which are threatened by human activity,

Alarmed by the fact that many species have gone extinct due to human caused pollution,

### Habitat Loss

1. Supports pollution pricing to slow climate change;
2. Affirms aquaculture to help repopulate fish;
3. Further invites all member states to preserve habitats for all wildlife for a sustainable future for both wildlife and humans;
4. Affirms sustainable farming to counter deforestation;

## **Climate Destruction**

5. Strongly encourages countries to pass new laws for pollution;
6. Encourages all to obey laws so it would not lead to further biodiversity loss;
7. Also urges to clean the ocean as well as improving hulls and propellers of container vessels;
8. Proclaims that we should prioritize mitigation of climate change;
