### Topic: Culture of Peace

Noting with deep concern that extra storms caused by climate change can affect the development and culture of peace of smaller countries,

Bearing in mind that smaller countries with less food supplies have more people resorting to violence to meet their fundamental needs,

Alarmed by the fact that individuals are spreading misinformation,

Fully aware that governments are spreading false information,

Deeply concerned at how many people take in misinformation,

Alarmed by the large amount of nuclear weapons in the world,

Fully aware of all kinds of discrimination,
