**Topic: Impact of the Ukraine-Russia conflict on global food security and related matters**

Deeply concerned by the pricing of products,

Aware of the lack of crops and food in parts of the world.

Taking into account the lack of food security in the world, mainly due to the fact that  $\frac{1}{3}$  to  $\frac{1}{2}$  of the produced food is wasted,

Recognizing the unsanitary food in underdeveloped countries caused by unsanitary conditions,

Fully aware that there is enough on this planet for everyone's needs, but not for everyone's greed,

### Food Security

- I. Encourages instructing the people in poverty to grow crops and food;

## **Resources Pricing**

2. Expects developed countries to raise awareness about developing countries struggling to afford food;

## **Food Waste**

3. Recommends that unconsumed food from restaurants can be used for the people in poverty;
4. Further requests that countries donate unconsumed food for the war effort, that would have otherwise been wasted;

## **Food Distribution**

5. Acknowledges that a total of 25,000 humans die per day, mainly in countries with less resources whose assistance in distributing food is required by more developed countries.
