### Topic: Adequate Housing

Alarmed by the amount of citizens that do not have a sustainable way of living and taking into consideration the success of past housing experiments such as the housing experiment in Belgium, proving that achieving adequate housing is not impossible,

Deeply disturbed by the CoronaVirus's effects, observing how important jobs and adequate housing are - so many people need homes that we would need to build 96,000 homes a day until 2030 to house the 3 billion people that need them,

Realizing the numerous amounts of people living in inadequate housing and the alarming rates of people experiencing homelessness,

Fully alarmed by the amount of trash collecting on our planet,

### Funding and Donations to Help Housing

1. Encourages raising funds via social media platforms and billboards;
2. Urges governments to change minimum wage in accordance to house costs;
3. Recommends the creation of organizations that can fund or help raise money to fund homeless shelters and education programs and housing;
4. Recognizes the effects that inadequate housing has on the world and therefore this global problem will require global cooperation to solve;
5. Urges for homeless shelters and organizations to have mobile services consisting of volunteers from their community to transfer homeless people to the shelter, as many people are not able to walk to the shelters;
