Topic: Adequate Housing

Alarmed by the fact that because of rent increasing many people have been forced out of their homes - one example of this are the problems happening such as eviction, housing, and additions that have caused about 150 million people to become homeless,

Deeply concerned by the effect inflation has in the rural housing markets,

Deeply concerned at the pollution of major water sources,

Aware that natural disasters are a big problem that come in the way of adequate housing,
