

Resolution Food and Agriculture Organization of the United Nations/I.I

Food and Agriculture Organization of the United Nations

Co-sponsors: Commonwealth of Australia, Republic of Austria, People's Republic of Bangladesh, Kingdom of Belgium, Federative Republic of Brazil, Republic of Burundi, Republic of Cabo Verde, Central African Republic, People's Republic of China, Republic of Colombia, Commonwealth of Dominica, Dominican Republic, Republic of France, Gabonese Republic, Islamic Republic of the Gambia, Georgia, Republic of Guyana, Hungary, Republic of India, Republic of Italy, Jamaica, Hashemite Kingdom of Jordan, State of Kuwait, Republic of Lithuania, Republic of Madagascar, Republic of Moldova, Kingdom of Morocco, Republic of the Union of Myanmar, New Zealand, Republic of Panama, Republic of the Philippines, Republic of Rwanda, Republic of Serbia, Republic of Sierra Leone, Federal Republic of Somalia, Democratic Socialist Republic of Sri Lanka, Republic of the Sudan, Syrian Arab Republic, Republic of Zambia

Topic: Empowering youth in inclusive and sustainable food systems

Alarmed by the lack of awareness and insecurity of food,
Noting with regret that the food sustainability is insecure,
Taking into account that not all youth yet possess a proper education,
Observing that the youth have not been given as much opportunities as they should,
Aware of some countries being separated by land or sea,
Bearing in mind a system that reuses leftover and filtered water,
Contemplating if robotic machines can help with agriculture farming,

Spreading Awareness using technology

1. Considers that billboards for food will produce proper advertisements;
2. Calls upon member states to implement robotic farming technology;
3. Encourages developers to make games and videos about food insecurity;
4. Considers that youth programs could give summer and part-time jobs in the food system industries;
5. Calls upon member states and organizations to educate youth on agricultural farming;
6. Requests teachers to inform youth about food insecurity;

Educational programs for educational farming

7. Encourages money to be donated to help school fund educational farming;
8. Requests donations from other countries to give them proper equipment;
9. Endorses to design laws to prevent the lack of food on countries;
10. Calls upon to have activities to teach the children about farming;
11. Authorizes to donate money to empty spaces of land to build more greenhouses for students to learn;
12. Recommends to hold camps about farming to inspire youth to farm;

Transportation of agriculture and food

13. Strongly encourages the concept of farming;
14. Requests to build greenhouses in order to grow and protect crops;
15. Requests people to send food and money to poor countries;

Easier ways to grow and sustain food

16. Encourages farmers to grow an economically stable food system;
17. Encourages member states to invest in food and agriculture transport systems;
18. Strongly requests that organizations that work in agriculture and food security join a bigger and complete organization so a network or materials can be spread.
