Topic: Empowering youth in inclusive and sustainable food systems

Aware of food wasted by people all around the world while other people are struggling to have anything to eat at all,

Believing that the UN will stop world hunger and guided by the UN we will succeed,

Seeking the importance of agricultural schools and the positive effect it has on youth,

Fully aware of uneven distribution of food and the microplastics that contaminate our food and water,

Controlling Poverty and Food Waste

1. Recognizes that eradicating poverty would contribute to sustainable food systems;
2. Emphasizes the importance of getting food to the needy;
3. Draws attention to the less fortunate people and urges more fortunate people to help others in need;
4. Expresses its hope that the less fortunate people get food and sustainability;

5. Notes that about 6-8% of human-caused greenhouse gas emissions could be reduced if we stop wasting food;

World Hunger and Lack of Food

6. Calls for people to help with world hunger and lack of food systems;

7. Calls for help in agriculture work because people suffer everyday because of the lack of food;

Youth Education

8. Strongly encourages more kids to go to agricultural schools;

9. Further recommends more kids to be given the chance to help agriculture;

Food and Water Systems

10. Calls upon children to create secure and future food systems;

11. Further invites anyone to help improve our current food systems in any way shape or form;

12. Requests from families that need food and water;

13. Takes note of people trying to resolve this problem;

14. Draws attention to people who need more food and water;

15. Encourages education to the people on supporting better.
