### Topic: Disaster Risk Reduction

Alarmed by financial aspects of disaster destruction,

Bearing in mind that richer countries should help the countries with less economic wealth,

Welcoming countries to share their technology as it greatly assists disaster risk,

Bearing in mind that disasters are getting worse everyday and that some are caused by some humans,

Fully aware that not enough people know about natural disasters,

Believing that preparing plans and strategies for natural disasters is possible,

### Enhancing technologies

1. Recommends that countries create a variety of shelters and safe houses in different areas;
2. Approves financing and building robots to aid people from disasters;
3. Calls upon countries to construct aqueducts to flood water to areas experiencing drought;
4. Further requests drought on app that can be created to warn people when their area is prone to natural disasters;

5. Calls upon governments to install bamboo foundations under buildings to help maintain flexibility during earthquakes;
