Topic: Green cities

Noting with approval all measures taken to reduce environmental issues,

Keeping in mind countries unable to go green,

Deeply concerned of all the environmental Issues and their tolls,

Noting with regret that there is limited access to clean water in many areas,

Deeply conscious of small sustainable farms limited support due to high cost,

Fully alarmed by the large usage of pesticides on farms worldwide,

Aware of urban areas unique vulnerability to natural disasters,

Observing the rapid growth of urban populations, sustainable energy, and the quality of life,

Expecting capable member states to focus on renewable transportation,

Alarmed by the neglect of green infrastructure and spaces in urban areas,

Sustainable Urban Change in Energy

1. Calls upon member states to take action against climate change and pollution;
2. Encourages community members to participate in the reduction of waste;
3. Requests funding for impoverished countries to protect against environmental issues;

Urban Growth Infrastructure and Quality of Living

4. Encourages member states to offer tax cuts to cities with outstanding green infrastructure programs;

5. Emphasizes the need for member States to provide affordables and sustainable housing to citizens by repurposing unused or abandoned infrastructure;
6. Expresses its hope for countries to promote the management of sanitation;

Environmental Issues

7. Encourages countries to support others if needed;
8. Calls for an increase of vegetation protection;
9. Encourages vertical greening and roof greening;
10. Calls for protection of biodiversity;
11. Promotes the reintroduction of species to achieve ecological balance
12. Encourages the establishment of logical legal institutions;
13. Encourages member states to offer tax cuts to cities with outstanding green infrastructure programs;
14. Emphasizes the need for member states to provide affordable and sustainable housing to citizens by repurposing unused or abandoned infrastructure;
15. Expresses its hope for countries to promote the management of Sanitation;
16. Requests that member states and NGOs provide access to education on health, fossil fuels, and emissions for citizens;
17. Requests cities to attend to waste management for a more clean and sustainable city;

Agriculture and the Environment

18. Encourages member states to promote consumer supported agriculture globally;
19. Calls for all to assist in the creation of green spaces by planting greenery in proximity of urban spaces;
20. Advises centralizing local produce in food supply;
21. Endorses tax cuts for businesses with green spaces;
22. Invites governments to condemn the large scale use of pesticides.
